How is Irving ISD going
further with DecisionEd?

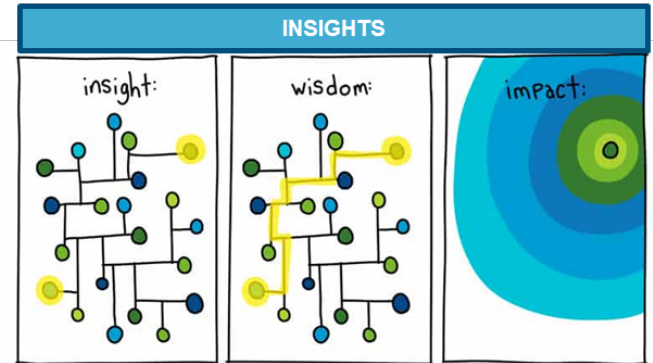

What is Data Empowerment?

The ability for stakeholders to use data to inform decisions and shape innovation.

How do we create a culture of data empowerment?

- Identify and break down barriers to effective data utilization.
- Streamline data by pulling together all relevant systems and linking them.
- Build capacity around common metrics, monitored with greater fidelity.

CCMR Monitoring

STEP 1: Find the data

- **Assessment Data**

- College Entrance- TSIA2, ACT*, SAT
- AP Scores
- IBC*

- **Courses Completed and In Progress**

- Dual Credit
- AP
- CTE*
- College Prep *

- **Special Education Transition Plans**

- **Graduation Risk**

- EOC's Passed
- Number of Credits Earned

****DATES****

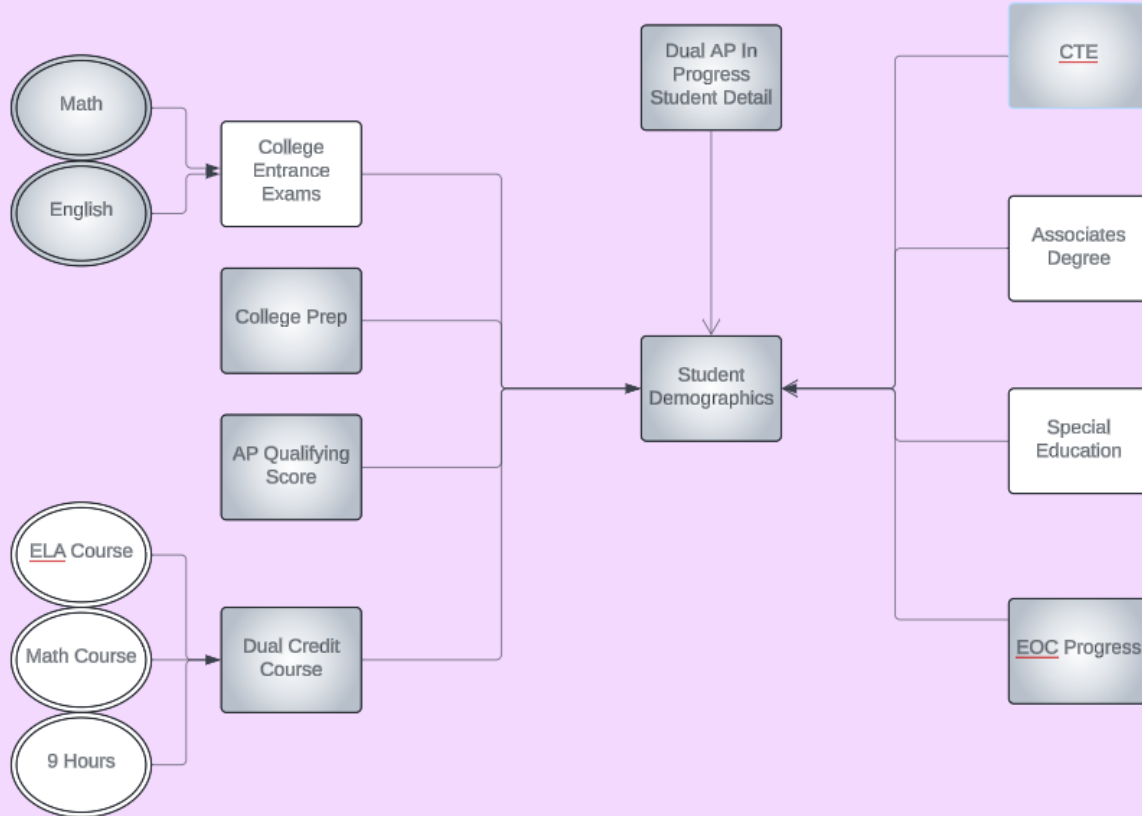

STEP 2: Learn the STRUCTURE of your data

- What dimensions do you need?
- What will you use as a key to connect the data parts?
- Find TEA lists for IBC, Program of Study, and approved course lists
- What pieces do you want to flag as In Progress?

STEP 3: Many Small Parts

What DecisionEd has done for IISD in going from Information to Insights

Before DecisionEd

- Creating monster spreadsheets by downloading multiple datasets and joining with XLOOKUPs
- Relying on tiresome pivot tables and conditional formatting
- Time-consuming and inefficient process
- Static dashboards

INFORMATION

Transformation with DecisionEd

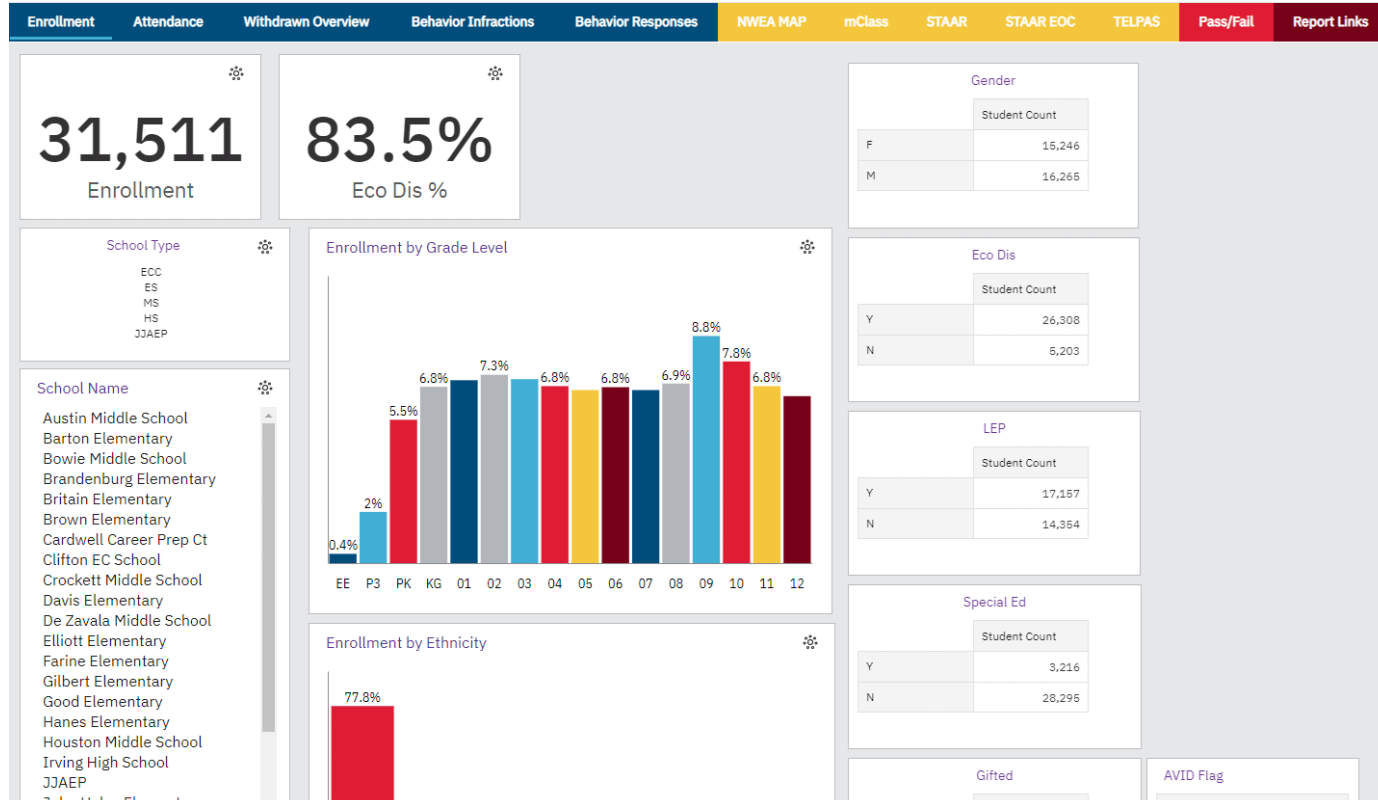

- Seamlessly connecting multiple datasets with a join from a central data location
- Leveraging robust data analysis tools and techniques
- More time spent analyzing data over gathering it
- Moving from static data to live and dynamic insights

INSIGHTS

Benefits of a centralized data warehouse:

- More time for creating insights and visualizations to monitor key factors
- Increased productivity and building capacity around common metrics

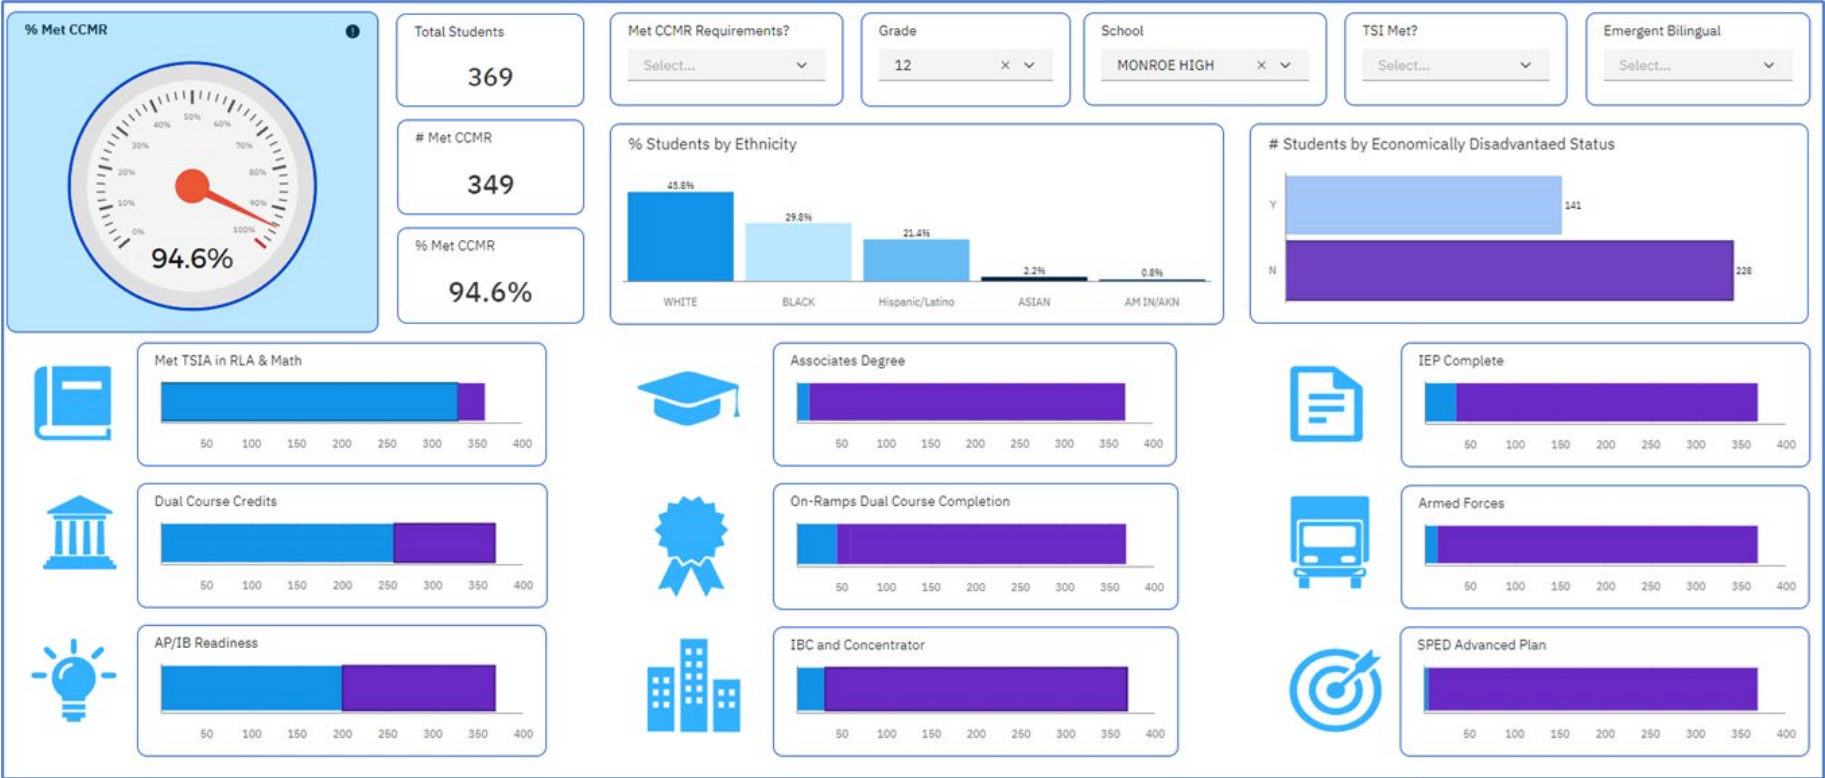

DecisionEd as the one-stop-shop for all data needs!
