MISD CCMR Data Platforms

MISD uses various data tools and platforms (SIS- Skyward, TEAL, Excel, Google Sheets, Edugence, On Data Suite, etc.) to ensure that all students get their CCMR credit before they graduate.

The Assessment & Accountability team pulls data from multiple sources monthly to determine student's CCMR progress.

The Assessment & Accountability team matches the data from multiple sources to Skyward enrollment data to determine CCMR credit for each student and shares Excel student listings with the campuses for review and verification.

Campuses review the student listings and notifies AA of any discrepancies. Campuses share score reports for new students with AA for supplemental ODS upload.

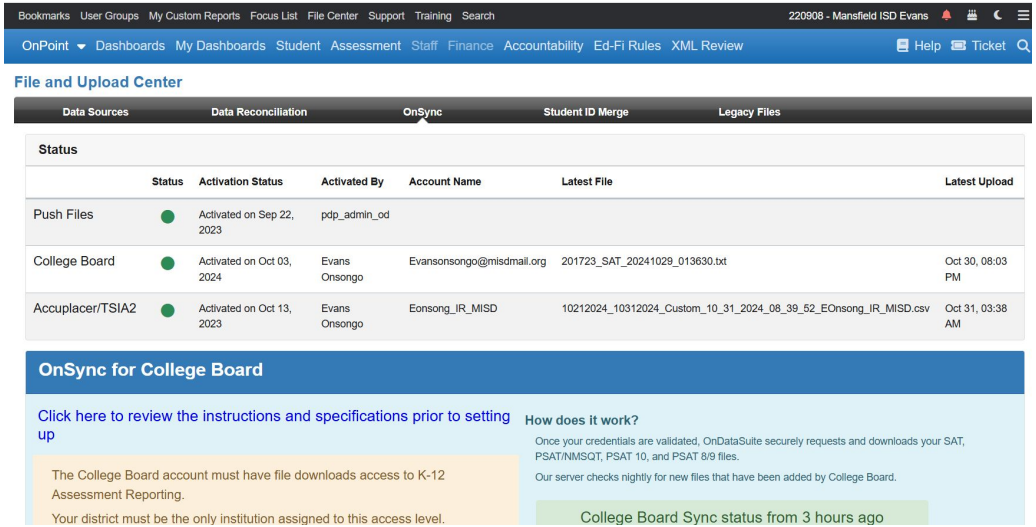
ODS CCMR “Cool” Features

ODS On Sync Feature

On-Sync - enables you to activate your College Board and Accuplacer on-sync features so your data are synced as soon as the data files are available on the vendor's portal.



For this feature to work effectively, ensure that your credentials are updated in ODS On Sync once you change them in the vendor's portal.

Supplemental File Upload Feature

Supplemental File Upload - allows you to upload a supplemental file with the data for students who transfer into the district or test outside the district on their own. It also is used to calculate student CCMR points in the absence of PEIMS confirmed values that will not be available in your SIS until the following fall submission

ODS's CCMR EWS Supplemental File Upload

- MISD utilizes the ODS Supplemental file upload feature to upload data for students new to the district or for assessments taken outside the district.
- Once the file is uploaded, the system gives the student an "S" for the indicator and flags as CCMR ready.
- Supplemental file is an overwrite - you have to upload the entire file every time.
